

SkillCheck™

Medical Skill Assessment Series

Assure optimal safety and health of your patients

Selecting qualified healthcare professionals can be a challenging task for healthcare providers. With typical screening tools like interviews, it can be difficult to assess applicants' skill or knowledge of the newest regulations.

With SkillCheck medical skill assessments, you can assess applicants for healthcare positions quickly and easily to determine whether they have the knowledge and skills required for success in a healthcare environment. This helps ensure you are hiring the right employees to protect the safety and health of your patients.

Highlights:

- Appropriate for most medical positions, including nurses, medical assistants and office personnel
- **All assessments are consistent with ICD-10-CM!**
- Customizable to meet your specific needs
- Content updated in 2015
- Quick and easy-to-implement
- Most assessments can be completed in under 10 minutes
- Appropriate for proctored and unproctored use
- Mobile-enabled

The Solution:

- Medical skills assessments designed to cover many medical jobs
- Focus on helping hiring professionals identify applicants with critical skills
- Identify candidates more likely to serve and treat patients effectively
- Highlights specific skill sets related to nursing, medical office (e.g., medical records, billing, coding), medical assistants and other medical professions
